Support includes the following: Plumbing is to be replaced including the sanitary system, discharge lines, chair carriers, and fixture arms. Other renovations include adding an exhaust system to ventilate both rooms; walls, tile floors, dividers, ceiling, to be completely gutted and re-installed with new materials. The restroom renovation also requires handicap accessibility, based on federal register 35605 for ADA installations. The current men's restroom configuration has two showers, which are not required. These showers would be removed to accommodate an ADA unisex restroom facility equipped with a water closet, sink, and exhaust ventilation. The shower removal will accommodate a janitor storage area equipped with a janitor sink. The ADA restroom and janitor storage area should each have access to the hallway.
